GCH's Exclusive Remanufacturing Exchange Program

You don't have to halt production because a machine component has gone bad. Simply tell us what you need and GCH will ship a replacement unit to you. Install the replacement in your machine and then ship the damaged unit to GCH for credit.

No downtime. No lost production.

Spindle Repair

With more than 10,000 new readily available parts, our team can restore your grinding spindle back to its original OEM state. GCH Tool can assist with many spindles styles, including roller bearing, filmatic, twin grip, high frequency and more.

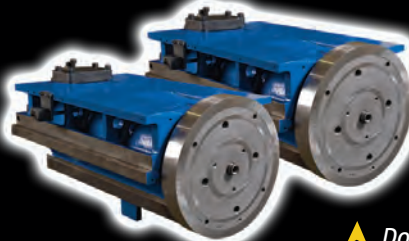

▼ Bryant high-frequency spindle

Heald red head spindle

▲ Double-disc grinding wheel spindle

GCH Tool Group also offers training, control upgrades, machine service and preventive maintenance.

VALUE. SERVICE. INVENTORY.
THAT'S WHO WE ARE.
